EDUCATION

Imperial Business School

London, UK | Sep 2026 – Aug 2027

MSc Financial Technology

Relevant modules: Mathematics for Finance, Accounting and Corporate Finance, Big Data in Finance, Blockchain and Applications, Financial Econometrics, Investments and Portfolio Management, Computational Finance with C++, Systematic Trading Strategies with Machine Learning Algorithms, Applied Trading Strategies, Quantitative Investment Strategies.

Delft University of Technology

Delft, The Netherlands | Sep 2020 – Aug 2025

BSc Computer Science and Engineering (7.72/10 – 2:1 equivalent)

Relevant Modules: Probability Theory and Statistics, Machine Learning, Algorithm Design, Signal Processing.
Thesis: Towards Automated Stance Detection in Congressional Hearings with Large Language Models.

PROFESSIONAL EXPERIENCE

Hellenic Air Force

Athens, Greece | Sep 2025 – Aug 2026

Airman

- Served in the Hellenic Air Force for 12 months to fulfil compulsory military service in Greece.
- Managed fast-paced cafeteria operations, including expenses, inventory, and time-sensitive supply orders.

HUMANISE

Delft, The Netherlands | Apr 2024 – Jun 2024

Software Architect

- Led the software team working on the HUMANISE Mars rover and delivered a fully functional prototype. Analogue astronauts tested the system later that year during the CHILL-ICE III mission in Iceland.
- Defined the end-to-end system architecture, from rover software to communication layers and the front-end interface.
- Designed and developed the mission control interface, which enabled remote control of the rover via both gamepad input and a brain-computer interface (BCI) headset.

YES!Delft

Delft, The Netherlands | Sep 2022 – Aug 2023

Machine Learning Engineer

- Developed a real-time computer vision pipeline in Python using ROS to detect and classify vehicles, cyclists, and pedestrians.
- Deployed the system on a prototype device that integrated environmental sensors.
- Delivered a visualisation interface that allows city planners to analyse live and historical traffic and pollution data to support Rotterdam's transition towards a car-free city.

Lunar Zebro

Delft, The Netherlands | Jun 2022 – Jun 2023

Software Systems Engineer

- Worked within the ground segment for a semi-autonomous lunar rover, focusing on rover-Earth communication, data acquisition, remote control, and visualisation.
- Designed and implemented mission control interfaces to support reliable rover communication under noisy conditions.
- Contributed to architectural decisions on system design and communication protocols.
- Presented the project at the International Astronautical Congress 2022 in Paris, France.

ACHIEVEMENTS

Co-founder of Tabme

Athens, Greece | Sep 2024 – Aug 2026

- Designed and developed a mobile app for splitting restaurant bills fairly and efficiently, and for managing peer-to-peer balances.
- Built a proprietary receipt scanning workflow and an algorithm for smart debt tracking.
- Reached over 500 users within the first three months of deployment.

Youth Entrepreneurship Summer Programme

Athens, Greece | Jun 2020 – Jul 2020

Received the "Best Implementation" award in the competition organised by the Athens University of Economics and Business.

Junior Entrepreneurship Programme

Athens, Greece | Jun 2019 – Jul 2019

Awarded 3rd place in the entrepreneurship competition organised by Orange Grove in collaboration with the Embassy of the Netherlands in Greece. Received a one-week trip to Amsterdam as a prize to attend courses at the Global School for Entrepreneurship.

ADDITIONAL SKILLS

Technical Skills

- Programming Languages: Java, Python, C++, Scala, JavaScript/TypeScript, Assembly, SQL
- Data & ML: numpy, pandas, scipy, PyTorch, OpenCV, Embeddings, LLMs, Vector DBs
- Software: Office 365, Word, Excel, PowerPoint (Microsoft Office Specialist Master certification)

Languages

English (Native), Greek (Native), German (Intermediate)

EXTRA-CURRICULAR & INTERESTS

- Self-taught drummer and music composer
- Practised table tennis for over 10 years and competed in Greece and the Netherlands
- Can solve a 3x3 Rubik's cube in under 20 seconds (personal best is 12.6 seconds)
